# 2014 HADOOP SUMMIT

April 2-3, 2014
Beurs van Berlage
Amsterdam, Netherlands

## Wednesday, April 2, 2014

| 09.00 | 10.00 | Coffee, Pastries - Grote Zaal |
| --- | --- | --- |
| 10.00 | 12.30 | Keynotes and Plenary - Effectenbeurszaal |
| 12.30 | 13.30 | Lunch - Grote Zaal |

| | | Effectenbeurszaal | Glazen Zaal | Berlagezaal | Administratizaal | Vielingzaal | Keurzaal |
| --- | --- | --- | --- | --- | --- | --- | --- |
| 13.30 | 14.10 | Putting wings on the Elephant | Real-Time Market Basket Analysis for Retail with Hadoop | Turn Hadoop Data into Business Insights: A New Approach for Rapid Exploration and Analysis | Making Hive Suitable for Analytics Workloads | Token Based Authentication and Unified Authorization for Hadoop | The Scoop on Hadoop: High-Performance Analytics with a "Hadoop Exoskeleton" |
| 14.20 | 15.00 | Real-time streaming classification with Storm | Capacity Planning in Multi-tenant Hadoop Deployments | Hive + Tez: A performance deep dive | Data Integration and SQL Application Migration with Cascading Lingual | Driving Business Innovation with Big Data | Apache Falcon and Data Governance in Hadoop |
| 15.10 | 15.50 | Apache Hadoop YARN: Present and Future | Harness Data in Real-Time with Infinite Storage | How to Build a High-Performing Data Team | Applying the Lambda Architecture | Terabyte-scale image similarity search with Hadoop | Interactive Hadoop via Flash and Memory |
| 15.50 | 16.20 | Break |
| 16.20 | 17.00 | Predictive analytics with Hadoop | Time Machine for Business Application Data by Capturing, Organizing & Processing of Change Records | Hadoop meets Mature BI: Where the rubber meets the road | Making bank predictive and real-time | Hadoop operations powered by ... Hadoop | HBase - a deeper dive into the recent developments |
| 17.10 | 17.50 | Analyzing big data with open source R and Hadoop | HBase 0.96 - A report on the current status | NonStop HBase – Making HBase Continuously Available for Enterprise Deployment | How to Tell Which Algorithms Really Matter | Hadoop Event Notification System | How Hadoop Can Help in Deciding Where to Better Invest your Marketing Budget |
| 17.50 | 19.00 | Exhibitor Reception - Grote Zaal<br>Party - Science Center |
| 19.00 | 23.00 | NEMO |

## Thursday, April 3, 2014

| 08.00 | 09.00 | Coffee, Pastries - Grote Zaal |
| --- | --- | --- |
| 09.00 | 11.20 | Keynotes and Plenary - Effectenbeurszaal |
| 11.20 | 11.50 | Break |

| | | Effectenbeurszaal | Glazen Zaal | Berlagezaal | Administratizaal | Vielingzaal | Keurzaal |
| --- | --- | --- | --- | --- | --- | --- | --- |
| 11.50 | 12.30 | Hadoop-2 @ ebay | In-memory caching in HDFS: Lower latency, same great taste | Hadoop, from lab to turnkey deployed 24/7 production | Semi-Supervised Learning on User Web Sessions with Hadoop | Big Data Evolution: From Early MPP Systems to EDW, Hadoop and Integrated Analytics | Simplifying Hadoop Administration with Ambari |
| 12.30 | 13.30 | Lunch - Grote Zaal |
| 13.30 | 14.10 | Monetizing Big Data at Telecom Service Providers | Hadoop Security: Today and Tomorrow | The Future of Data | BigData Trends and HDFS Evolution | Big Data looks tiny from Stratosphere | Economies and Diseconomies of Scale for Predictive Analytics |
| 14.20 | 15.00 | Real-Time Big Data: Storm Architecture and Integration Patterns | Using Hadoop as a platform for Master Data Management | Let`s Talk Operations! | Finding Allelic Frequencies Using MapReduce/Hadoop | HP HAVEn Big Data Platform - no compromises, no limits | Standalone Block Management Service for HDFS |
| 15.00 | 15.30 | Break |
| 15.30 | 16.10 | Taking Hadoop to Enterprise Security Standards | Coordinating Metadata Replication: Survival Strategy for Distributed Systems | Deeply integrate Hadoop with your relational data warehouse | Hadoop-enomics, the invisible hand of big data | 7 Deadly Hadoop Misconfigurations | Apache Mahout - Verging on 1.0 with New Capabilities |
| 16.20 | 17.00 | Adding ACID Transactions, Inserts, Updates, and Deletes in Apache Hive | Smart meter data analytic using hadoop | Personalizing Live TV | YARN at XING: Ad-hoc Deployment of Scala Applications | Apache Tez - A New Chapter in Hadoop Data Processing | Apache Giraph: large-scale graph processing on Hadoop |
